

## My Money Train Update 09/20/08 (save this to your desktop!)

I started this project last June, so it's pretty exciting see these kind of results this fast. It's certainly enough to easily see the vision of what it can produce over time once potential referrals can see where it's going. There's very little risk, since the only cash I used was what I earned from other advertising programs online. I can help you do that too.

To start with, I joined several Paid to Click programs, one of them NeoBux on June 19. I used my website at <http://AdCashGenerator.info> to start getting referrals, so now I have 76 others helping me generate Advertising Clicks and building our team.

**Earned \$392.21 Total**

**All but \$3 of it in two months**

Notice I'm a Golden member and most of my earnings come from referrals. I have 854 clicks to their 26,154! That's the leverage that opens the vault! I decided to upgrade and rent referrals to fast forward the plan and I made back more than my \$80 investment the very first month. Now I look over my rented referrals weekly and weed out the bad ones so I can stay around 300 until I get my direct referrals up to that point. That's costing me \$60 a month for now and another \$10 a month to stay Golden, but I make over \$300 a month in return and it proves the system works, which brings in even more referrals. I grabbed another 30 rented referrals today to replace some I dropped. With the secret at <http://iptcx2.com/secret/> it's easy to get them. Make sure you click all your ads every day (5 minutes) so you earn from all your referrals clicks!

Here's this month's AlertPay update to the screenshot on <http://AdCashGenerator.info>

Total of \$403.62 so far in September

The entry from Solixta is my Ad Pack Network cash out after I bought another 52 Ad Packs this week. I plan to make the Ad Packs I have now keep providing me with free advertising and add a little to my income each week like this. It'll slowly grow over time and as long as I keep it over 20 Ad Packs to qualify as an Expert member, I get 10% of my downline's Ad Pack purchases too. Remember, this is in Euros, so multiply by 1.6 to get US Dollars. I would continue to reinvest here for the advertising benefit alone!

I'm also building Work for 3 Dollars and with extra money in AlertPay I am looking at other money building advertising programs that share revenue. I also have a TEAM to work with now, which is the ultimate resource.

I'm NOT a Paid to Click Guru, I just started myself when I realized how this plan I dreamed up could be used to get easy referrals for all of us. Then I knew we could use that cash to fund other ventures and build a nice income. It's working!

I started the plan with more Paid to Click websites so anyone could build it free, but after a while I figured out what they were doing. They suck you in with big promises and string you along by extending the time to pay you indefinitely. NeoBux was the first to start the Instant Payment benefit and now several others are starting to closely follow suit. I think they'll soon take over the market. I'll keep clicking a couple of the old ones that I have over \$100 coming from, but I seriously doubt if it will ever show up.

Here are the only ones I'm recommending for today:

**NeoBux** for instant cashouts, several received by me.

**NetCashBucks** is a new one I just upgraded in, also instant pay.

**BuxOut** brand new \$5 payout INSTANTLY.

**ThinkBux** pays out in 5 days or less.

**OsoBux** \$4 payout in less than 10 days or 24 hours when upgraded.

The thing to keep in mind is, these Pay to Click websites are disposable. Even if I replace one, all I lose is a little time and if I keep testing and use only the best ones in the plan it'll be easy to keep some cash coming in all the time without discouragement. I won't upgrade any of them until they actually pay.

With a large team, we'll also be in a position to grab new Paid to Click programs and find faster success to reach payouts. It's these payout proofs that excite the Paid to Click crowd, so the faster we get there, the more referrals we generate. Then simply show them the entire plan and expand on that. So KEEP CLICKING yourself too. In the meantime you can use my reports with your links on your website.

So that's the plan for building a steady free money source, but it wouldn't work if we didn't have a way to build referrals fast and that comes from the VISION the team website projects. Imagine what will happen when some of you duplicate what I'm doing, then we do it again and again while we siphon off a little for ourself along the way.

My PTC income won't rise with your success, but my Ad Pack income and WF3D sure will, as well as anything else we develop along the way. If you think that's not going to happen, take a quick look at <http://gpcdon.blogspot.com/> and I have several others that are just getting started on their own plan as well. No it won't happen overnight, but I have time and it's a HUGE rush to see someone I helped succeed like that. I'm more than glad to work with you one-on-one or with the blog at <http://gdisystem.com/help>

So that's the story, now it's just wash, rinse and repeat. I'll be doing more reports as it grows and some videos on YouTube, so stay tuned. Or better yet, jump on board the Money Train before you get left standing at the station! Use this report to show friends.

**WARNING: THERE ARE NO GUARANTEES THIS WILL KEEP WORKING!**

Sure it could blow up anytime and leave us holding an empty bag, but the Internet is not going anywhere and there will always be those who want to make extra money. What we learn by doing all this, is valuable knowledge they can't take from us. Once your mind is expanded, it never goes back to where it was. I have no doubt something new will show up to carry us to the next level, just like it has for me over the last eight years I've been doing this stuff. I've made money every month, even when individual programs fail.

To our mutual success,
